Topic 7

Focus Questions

1. Create a story of a person that would lead one to believe that they are struggling with one of the Dissociative Disorders (from the mindmap).

2. Become one of the Somatic Symptom and Related Disorders (from the mindmap). Describe the symptoms you will create in a person, what caused them, and treatments that might work. Discuss the family, occupational, and social effects you will have on your victim.

3. If you were a health psychologist, what would you tell people about the treatment and prevention of coronary heart disease, cancer, and AIDS?
